About This Game

"Can you see this?! I can't believe it! According to the legend of the Venux, You will be the Ace of Protectors. That means, You're the only hope to save our world, Ace of Protectors."

There is a fantasy world called as the Venux. The Venux is a different-dimension world from the Earth. One day, 'Master', who is only the god in the Venux, She recognized that devils were coming to destroy the Venux. But humans in the Venux didn't have enough power to defend the Venux from devils. However, she also knew the legend of the Venux. According to the legend of the Venux, there was a hero called as 'Ace of Protectors'. 'Ace of Protectors' will come back to the Venux to defend the Venux from devils. People in the Venux don't know who Ace of Protectors is. But, certainly, Ace of Protectors will come back soon...

◆ Two characters to save the Venux world

- There are two characters to save the Venux. One is 'Estel', a man who's a special force member called 'specialist' in the Earth. However, during doing one mission, he came to the Venux by unknown power. Another is 'Yuri', a girl who is an elite protector in the Venux. She's leading all of protectors and protecting Master. You will control two characters.

◆ A hero to save the Venux.

- Devils are coming to destroy the Venux! They are trying to revive their lord, 'Dark Lord'. The Venux will be in danger when he revives. However, According to the legend of the Venux, there was a hero who was called as 'Ace of Protectors', and was died with the Dark Lord long time ago. The legend says, Ace of Protectors will come back when the Venux is in danger. But anyone don't know who they are. Only one thing is certain, Ace of Protectors is coming back to the Venux...

◆ The Venux world is with you.

- There are 40+ side quests and 50+ gears for each of your characters. Craft special gears! Special Gears are much stronger than Normal gears. Don't forget to help your friends! By clearing your friends' quests, you'll get rewards and special access to craft special gears and your friends will like you. When they start to like you, they may give special gifts to you!

◆ **Levels, stats, and Skills to make you stronger.**

- Your characters must be stronger than now to fight devils. Take down your enemies, craft special gears, help your friends, and use your skills. Do your best to save the Venux. Experience you earn will make your characters get more power.

◆ **Save and load your journey.**

- You are able to save and load your journey. Steam Cloud lets you save and load your data easily wherever you are. Keep your progress.

Also Steam Cloud supports Cross-Platform Clouding like from Windows to Mac OS X.

◆ **Intels, Steam Achievements, and Steam Trading Cards.**

- Collect Intels which help you to understand the game. There are many achievements for you. Try to achieve them and get special rewards. 'Ace of Protectors' supports both Steam Achievements and Steam Trading Cards!

◆ **'Ace of Protectors' supports gamepad controllers.**

I can't remember if I got this game on sale or from a humble bundle, but I have to say it was completely worth every penny I paid. In fact its easily worth more than \$10.

It's a very fun game, but it is somewhat short. It's also kind of a niche product, you have to be a fan of the RPG genre to be able to fully appreciate this title.

As far as gameplay, it's a choose your own adventure type game, it's very D&D like; it's also easy to pick up and play.

Overall: 8 1/2 out of 10.. comically bad, very repetative. basically a jumpscare factory, but my raging boredom and disappointment made for good footage.. Good production quality, runs well, but unless you really like simplistic Kinect-like controls with a mouse, it is kind of shallow and boring. I played 2 levels and had enough. It isn't bad, but it was just no fun to me. I don't need to waste time. If you are a completionist, beware in case it is a chore :) . Otherwise if you like trivial mouse games, go for it. Or just download the soundtrack, which is the only thing I find enjoyable to an extent. Just not fun. [1/5 stars]. I play vive games every single day for my Youtube channel, but Alice VR was the first one to completely wow me. There is nothing like this game. Period. If youre worried about the initially negetive reviews, the graphical issue has been fixed. Actually, this is one of the most visually stunning VR games available. I have a playthrough on my channel, but I want to stress that I paid for the game, and was in no way sponsored by Carbon Studios. It's just that good. Seriously.

Check out my interview with one of the Developers here:

<https://www.youtube.com/watch?v=vkeGqc1oCDA>. Good story, interesting alternate history, and less dating than one might expect from the description. About three hours playtime for the Astrid route.. Interesting concept, but apart from that - it's just another beat 'em up.. A non-biased quick look @ the game:

There's a sense of wonder as you gentle fall into an alien ream avoiding it's dangerous lifeforms. Euclidean; a game of geometric horror; a slow descent into the dark, into madness, futility, and despair, where Things greater than you watch and wait and dream. Struggle for every second of life you have left... Even knowing you're better off dead. - Recommended!

What a Load of ♥♥♥♥e. Very cool. I wish there was a way to look at other peoples work or send some of my work to friends. I really like what you have done so far.. Going to be an amazing game. MW1 on iOS was amazing. Buggy but its launch day so please give it a chance. Great art!

Great music!

Great voice actors!

Great mechanics!

Really great indie game!

A must have to all stealth, cyberpunk fans, to all indie game lovers and to everyone who wants something fresh!. A fun little puzzle/hidden object game in the vein of Samorost and Tiny Bang Story.

. do not buy. Spent my entire time mashing space to get thru unskippable cutscenes. You spend 20 minutes listen to ASMR anime music and mashing space for 15 minutes before you even play the game. Shocking
